

## **FaceKey Corp. Selected by Choice Facility Partners As Approved Provider for Security Products**

SAN ANTONIO – March 18, 2009 (BUSINESS WIRE) FaceKey Corporation, (OTC, FEKY) the manufacturer of biometric-based security products utilizing fingerprint and/or facial recognition, announced today that Choice Facility Partners (CFP) has awarded a contract to FaceKey, specifically for their EntryGuard™ Security Products. FaceKey is the only company on Choice Facility Partners list of security system providers; their client members are ideally suited for FaceKey products.

Members of the Choice Facility Partners cooperative purchasing organization are non-profit schools, education-related organizations and other governmental entities. Rather than each organization procuring bids, CFP legally and competitively secures the bid, thus saving governmental entities the staff time and other preparatory purchasing expenses normally incurred. With the timeliness of the need for superior security – especially in schools and vulnerable governmental agencies – FaceKey is anticipating that this alliance will lead to substantial purchases of its products. For more information on the cooperative, see [www.choicefacilitypartners.org](http://www.choicefacilitypartners.org).

“Cooperative purchasing is a time-honored method of providing eligible organizations the ability to save money,” said Dean Zajicek, Choice Facility Partners director. “And at Choice Facility Partners we undertake research up front so that our contracts and partners provide significant quality to our client members, as well as best value.”

In addition to the Security Systems provided by FaceKey, an array of other products and services are offered by CFP. All of these may be purchased by qualified nonprofit buyers without further bidding activity, as they are already legally and competitively pre-bid. As an additional benefit, CFP audits use of contracts and partner performance to ensure quality and customer service.

### **About FaceKey Corporation**

FaceKey Corporation has built a portfolio of patents related to fingerprint and/or facial recognition. Applications for both home and business include access control, accurate and reliable time and attendance systems, and crisis evacuation (muster) stations. The biometric technologies developed by FaceKey are available for licensing to other companies for integration into products that will provide Genuine ID. The company was co-founded by Dr. Yevgeny B. Levitov and Annette H. Starkweather in 1999 and is based in San Antonio, Texas. More news will be available in the coming weeks.

The company’s defined mission is “Helping Good Businesses Survive during a Bad Economy.” FaceKey offers a unique *INVESTOR PARTICIPATION PROGRAM*, and pays a commission for referrals that result in

sales. There are many businesses in areas throughout the country that could benefit from payroll savings during these hard times – and many individual sellers who could also benefit from the commission income.
