

FaceKey Corp. Enters Agreement with Burcaw Company & Associates

Thursday, October 4, 2007

SAN ANTONIO, TX -- (BUSINESS WIRE) – FaceKey Corporation, (Pink Sheets: FEKY - News) the manufacturer of biometric-based security products utilizing fingerprint and/or facial recognition announced today that Burcaw Company & Associates has been added to their network of marketing representatives for their new EntryGuard™ products for the state of Michigan and the city of Toledo, Ohio.

Lynn Toussaint, President of Burcaw Company & Associates (www.burcaw.com), stated that “Because of our extensive experience in the electronic security industry, we immediately recognized that FaceKey’s™ EntryGuard™ products exceed the requirements of today’s sophisticated security customer. The highly-reliable EntryGuard™ products, with their ability to authenticate identity, will ensure that the workplace is safe.” By eliminating “buddy punching” and accurately recording the time of entry and exit, labor costs are reduced. Payroll operating expenses are also reduced because totals for the hours worked are compiled by the system. EntryGuard™ access control units have Wiegand connectivity which will enable the customer who already has an access control system to replace a card reader with a fingerprint reader without changing their current connections. Most importantly, card reader systems can be updated with an infallible EntryGuard™ unit at a competitive price.”

According to Dr. Yevgeny B. Levitov, President and Co-Founder of FaceKey, “Our priority is to produce industry-leading products that provide genuine identification for superior security and save the customer money. We are excited that Burcaw immediately recognized the benefits of our biometric security products. Burcaw’s established reputation and success in the security industry is expected to give FaceKey a leading edge in the marketplace. Burcaw has been serving Michigan for over 50 years and is the representative for several niche products including Bosch’s Closed Circuit TV surveillance equipment.”

About FaceKey Corporation

FaceKey Corporation, a developmental stage company, has built a portfolio of patents related to fingerprint and/or facial recognition. Applications for both home and business include access control, accurate and reliable time and attendance systems, and crisis evacuation (muster) stations. The biometric technologies developed by FaceKey are available for licensing to other companies for integration into products that will provide Genuine ID™. Its products are sold through a network of distributors, dealers and system integrators worldwide. The company was co-founded by Dr. Yevgeny B. Levitov and Annette H. Starkweather in 1999 and is based in San Antonio, Texas. Watch for more exciting news in the coming weeks. For more information, call VUI Consulting at 866-730-9604.

Forward-Looking Statements

This press release contains statements, which may constitute "forward-looking statements" within the meaning of the Securities Act of 1933 and the Securities Exchange Act of 1934, as amended by the Private Securities Litigation Reform Act of 1995. Those statements include statements regarding the intent, belief or current expectations of FaceKey Corporation and members of its management as well as the assumptions on which such statements are based. Prospective investors are cautioned that any such forward-looking statements are not guarantees of future performance and involve risks and uncertainties, and that actual results may differ materially from those contemplated by such forward-looking statements. The Company undertakes no obligation to update or revise forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes to future operating results.
