

FaceKey Supplies Biometric Access Control System for Higuchi Manufacturing

SAN ANTONIO, TX, Nov 06, 2007 (MARKET WIRE via COMTEX) -- FaceKey Corporation (PINKSHEETS: FEKY), the manufacturer of biometric-based security products utilizing fingerprint and/or facial recognition, announced today that Higuchi Manufacturing, America LLC has selected the EntryGuard(TM) fingerprint-based access control system for its San Antonio location. Alamo Integrated Systems, Inc. of San Antonio, TX, a reseller, will install and set up the system.

Allen Fukushima, President of Higuchi Manufacturing (<http://hig-jp.net>), notes, "FaceKey's EntryGuard(TM) fingerprint based access control system is a 'must have' for a company to control access to its facilities. Use of the FaceKey system will ensure that Higuchi can restrict access to only authorized individuals. In addition, employees will not be able to forget or lose their card, and the cost of replacing lost or damaged cards will be eliminated. The FaceKey products will give Higuchi the ability to protect our facilities and equipment, and will enable us to provide a safe workplace for our employees."

According to Dr. Yevgeny B. Levitov, President and Co-Founder of FaceKey, "Our priority is to produce industry-leading products that provide genuine identification for superior security and save the customer money. We are pleased that Higuchi Manufacturing has selected the EntryGuard(TM) Access Control System. This system provides Higuchi with the ability to restrict access to its facilities with a level of accuracy not possible with a card-based system. FaceKey anticipates that as Higuchi experiences the accuracy and convenience of the EntryGuard(TM) Access Control System along with the administrative cost savings, they will purchase the EntryGuard(TM) Time and Attendance System for additional convenience and savings. Higuchi Manufacturing is a high level manufacturer using sophisticated equipment to provide high quality products which are superior to their competitors at reasonable prices. FaceKey is proud to be associated with Higuchi Manufacturing as they bring their manufacturing business into the United States."

About FaceKey Corporation

FaceKey Corporation, a developmental stage company, has built a portfolio of patents related to fingerprint and/or facial recognition. Applications for both home and business include access control, accurate and reliable time and attendance systems, and crisis evacuation (muster) stations. The biometric technologies developed by FaceKey are available for licensing to other companies for integration into products that will provide Genuine ID(TM). Its products are sold through a network of distributors, dealers and system integrators worldwide. The company was co-founded by Dr. Yevgeny B. Levitov and Annette H. Starkweather in 1999 and is based in San Antonio, Texas. Watch for more exciting news in the coming weeks.
