

FaceKey Corp. Enters Agreement With Delphi Security Solutions

SAN ANTONIO, TX, Oct 10, 2007 (MARKET WIRE via COMTEX) -- FaceKey Corporation (PINKSHEETS: FEKY), the manufacturer of biometric-based security products utilizing fingerprint and/or facial recognition, announced today that Delphi Security Solutions, headquartered in San Antonio, TX, has joined their network of resellers representing their new EntryGuard(TM) products.

Paul Coleman, President of Delphi Security Solutions (<http://www.delsecsol.com>), noted that, "As part of our continuing efforts to provide the most advanced and cost effective security products and services to our clients, Delphi has partnered with FaceKey and will offer its cutting edge fingerprint-based EntryGuard(TM) product line to our clients. When Delphi's Security Experts conduct vulnerability assessments for both the government and private sector, we can now recommend the EntryGuard(TM) fingerprint-based access control, time and attendance system which exceeds industry standards. This provides our clients with a tool to accurately record labor costs as an integral part of their security program, and enable them to realize a better return on investment for their security dollar."

According to Dr. Yevgeny B. Levitov, President and Co-Founder of FaceKey, "Our priority is to produce industry-leading products that provide genuine identification for superior security and save the customer money. Delphi Security Solutions, with its background and breadth of experience, prides itself on being a true 'security partner' to its clients, and is well qualified to utilize FaceKey's products to enhance the benefits they can offer to their clients. Delphi immediately understood the value of incorporating the EntryGuard(TM) line of security products to improve their clients' workplace and bottom line. We are eagerly anticipating that Delphi, with its many Fortune 500 clients, will give FaceKey an entry into a new niche in the security industry."

About FaceKey Corporation

FaceKey Corporation, a developmental stage company, has built a portfolio of patents related to fingerprint and/or facial recognition. Applications for both home and business include access control, accurate and reliable time and attendance systems, and crisis evacuation (muster) stations. The biometric technologies developed by FaceKey are available for licensing to other companies for integration into products that will provide Genuine ID(TM). Its products are sold through a network of distributors, dealers and system integrators worldwide. The company was co-founded by Dr. Yevgeny B. Levitov and Annette H. Starkweather in 1999 and is based in San Antonio, Texas. Watch for more exciting news in the coming weeks. For more information, call VUI Consulting at 866-730-9604.

Forward-Looking Statements

This press release contains statements, which may constitute "forward-looking statements" within the meaning of the Securities Act of 1933 and the Securities Exchange Act of 1934, as amended by the Private Securities Litigation Reform Act of 1995. Those statements include statements regarding

the intent, belief or current expectations of FaceKey Corporation and members of its management as well as the assumptions on which such statements are based. Prospective investors are cautioned that any such forward-looking statements are not guarantees of future performance and involve risks and uncertainties, and that actual results may differ materially from those contemplated by such forward-looking statements. The Company undertakes no obligation to update or revise forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes to future operating results.
