

## FKFP-PRO2 - Enrollment Manual

### Enrolling Face/Fingerprints using the enrollment terminals.

1. Open the Menu on the enrollment terminal, press the M/OK key, select the User Mgt icon, then press the M/OK key.
2. Select “All Users” and press the M/OK key.
3. Enter the person’s Badge/ID number into the search field and press M/OK key.
4. Select Edit and press the M/OK key.
5. Select Face button and press M/OK.
6. Follow instructions on the terminal. When the face enrollment is complete the terminal will return you to the Menu.

## FKFP-PRO2 - Enrollment Manual

- Next, select the fingerprint then press M/OK key, use up/down arrow key to select finger to enroll.
- Press M/OK key.
- Have person place selected finger onto the window of the fingerprint scanner. Press finger firmly and remove finger. Repeat the process two more times.
- A second finger can be entered at this time. Enroll two fingers. Enroll a finger from each hand.
- After enrollment is completed press the ESC key several times to exit back to the main window.
- Verify face and fingerprint to be sure it is working. Have the person look into the terminal then have them touch the fingerprint scanner. This completes the enrollment process.
